Whether you have an electronic or mechanical engine, the PowerView 380 display is the answer. It features a robust, multifunction display for advanced monitoring of both types of engines.

The PV380 display monitors multiple engine and machine parameters on an easy-to-read 3.8-inch (97 mm) QVGA monochrome LCD. The displays are capable of handling sophisticated engine diagnostics as well as basic engine alarm/shutdown.

The display provides an out-of-the-box solution for your system. The PV380 can easily be programmed on site with its intuitive screens and sturdy push buttons.
