

# IN-STOCK REPLACEMENTS FOR DELCO SOLENOIDS

Replace obsolete, expensive or hard-to-get Delco solenoids with OEM approved Trombetta solenoids.

Trombetta stocks replacements for discontinued or hard to find Delco solenoids. In every case we produce a replacement that is equal or superior to the Delco model in electrical and mechanical features. Designed for form, fit and function, Trombetta replacement solenoids are preferred by original equipment manufacturers because of our reliability, availability and price.

## OTHER REPLACEMENT SOLENOIDS AVAILABLE:

- D610 series solenoids replace Synchro Start 1502, 1504 and 1753 solenoids.
- P610 series solenoids replace Synchro Start 1502ES, 1504ES and 1753ES solenoids.
- D513 series solenoids replace Synchro Start 2001, 1751, and 2003 solenoids.
- P613 series solenoids replace Synchro Start 2001ES, 1751ES, 2003ES and D series solenoids.
- D515 series solenoids replace Synchro Start 2370 solenoids.
- P600 series solenoids replace Synchro Start 1502, 1504, 1751 and 2003 solenoids when used with Trombetta modules.
- Low profile governor mounted kits provide efficient shutdown for engines with Bosch RSV governors.
- Q600 series solenoids provide push action up to 20 pounds at 1-1/2" stroke.
- "Quick-Kits" are available for shutdown of many popular engines.
- P/Q 500 series and D500 series solenoids (push and pull) are available for applications requiring longer strokes and /or higher forces.
